User Acceptance Testing (UAT) Template

Date	26-05-2025
Team ID	SWUID20240000985
Project Name	Freelancing (SB Works)

Project Overview:

Project Name: Freelancing (SB Works)

Description: A web-based platform that connects freelancers with clients. It includes profile creation, job postings, application tracking, messaging, and payment integration.

Project Version: v1.0.0

Testing Period: 12/06/2025 To 26/06/2025

Test Scope

- User authentication (login/signup/reset)
- Project posting and listing
- Freelancer application and messaging
- Real-time chat via `Socket.io`
- Admin panel access and control
- MongoDB database connection
- Frontend (React) and Backend (Node/Express) integration

Requirements to be Tested

- **As a freelancer**, I want to apply for jobs easily from the job listings page.
- **As a client**, I want to post jobs, view applicants, and hire suitable freelancers.
- **As a user**, I want secure login/signup and password reset features.
- **As an admin**, I want to manage users, review project disputes, and ensure platform integrity.

Testing Environment

- **URL:**
  https://github.com/Pawan-o3/Freelancing.git
- **Credentials for Testing:**

Role	Email	Password
Freelancer	free@123	password123
Client	client@123	password123
Admin	admiin@123	Password123

Test Case:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Status
TC-001	User Registration	1. Visit the website 2. Click "Sign Up" 3. Enter details and submit	Account is created and user is redirected to home	☑	Pass
TC-002	Post a Job (Client)	1. Login as client 2. Go to "Post Project" 3. Enter job details and submit	Job appears on homepage and client dashboard	☑	Pass
TC-003	Apply for Job (Freelancer)	1. Login as freelancer 2. Browse jobs 3. Click "Apply" and submit a proposal	Proposal appears under "Applications"	☑	Pass
TC-004	Message Exchange	1. Client views freelancer profile 2. Sends message via chat 3. Freelancer replies	Real-time chat visible to both parties	☑	Pass

Bug Tracking Table:

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback / Fix
BG-001	Error on empty job post form	Login as client → Open Post Job → Submit empty form	Medium	Open	Add required field validations on form
BG-002	Chat window doesn't auto-scroll	Send 6+ messages → Check scroll behavior	Low	Open	Use `scrollToBottom()` on message load
BG-003	Forgot password not working	Open login → Click forgot password → Submit email	High	Fixed	Link backend with password recovery flow

Sign-off:

- **Tested By:** Pawan
- **Date:** 26-05-2025
- **Sign-off:** Approved

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
